

**THURSDAY, JUNE 21 – Treatment and Prevention****ORAL PRESENTATIONS #1****MERCATO AT CLARE HALL: Childhood & Adolescent Obesity Strategies 1**

<b>10:30-01-OR</b>	<u>Kristen Reilly</u> and Shauna Burke-Evaluating the Impact of a Parent-Focused Pilot Intervention Targeting Childhood Obesity on Parental Self-Efficacy for Children's Health Behaviours
<b>10:45-02-OR</b>	<u>Nadia E Browne</u> , Josie Geller, Nicholas Spence, Kathleen O'Connor, Suja Srikameswaran, Joanna Zelichowska, Josephine Ho, Rebecca Gokiert, Valerie Carson, Nicole Gehring, Heidi Virtanen, Cheyanne Hinkley, Louise C Mâsse, Katherine M Morrison, Jennifer L Kuk, Nicholas L Holt and Geoff Ball-The Readiness and Motivation Interview (RMI-Family) for Families Managing Pediatric Obesity: Preliminary Findings
<b>11:00-03-OR</b>	<u>Meghan McGee</u> , Jill Hamilton, Catherine Birken, Zdenka Pausova, Nicole Bando, Sharon Unger and Deborah O'Connor-Added sugars, protein intake, and diet quality are associated with body composition in 5-year-old children born very low birth weight
<b>11:15-04-OR</b>	<u>Meghan McGee</u> , Jill Hamilton, Catherine Birken, Zdenka Pausova, Nicole Bando, Sharon Unger and Deborah O'Connor-Sedentary time is associated with reduced fat-free mass in 5-year-old children born very low birth weight

**AUDITORIUM AT MOTHER ST. JAMES: Novel Interventions**

<b>10:30-05-OR</b>	Sean Wharton, <u>Rebecca A. G. Christensen</u> , Linh Thuy Bui, Sandra Elia and Jennifer L Kuk-Characteristics of Patients Who Self-Selected to Enroll in a Medically Supervised Out-Patient Food Addiction Program
<b>10:45-06-OR</b>	<u>Xiaowei Ma</u> and Tarun Katapally-Ecological Momentary Assessments to Map Barriers and Facilitators of Active Living: An Innovative SMART Platform Initiative
<b>11:00-07-OR</b>	<u>Magnoudewa Priscille Pana</u> , Pierre Ayotte and Lucas Michel-Fat mass and fat free mass changes in relation to metabolic markers and insulin resistance among adolescents : a school-based intervention program in French Polynesia

**ROOM 135 (GROUND FLOOR) AT MOTHER ST. JAMES: Other Causes/Consequences of Obesity**

<b>10:30-09-OR</b>	<u>Mathilde Lavigne-Robichaud</u> , Xavier Trudel, Alain Milot, Mahee Gilbert-Ouimet, Caroline Duchaine and Chantal Brisson-Job Strain and the Prevalence of Uncontrolled Hypertension among White-collar Workers
<b>10:45-10-OR</b>	<u>Adrian Safati</u> -The effects of cortical stimulation on cognition and eating behaviour
<b>11:00-11-OR</b>	<u>Brenton Button</u> , Suzanne Tillmann, Andrew Clark and Jason Gilliland-"It's a town just outside of nowhere": How does the rural built environment influence a child's physical activity.

**THURSDAY, JUNE 21 - continued****ORAL PRESENTATIONS #2****MERCATO AT CLARE HALL: Childhood & Adolescent Obesity Strategies 2**

<b>1:00-13-OR</b>	<u>Isabella Romano</u> , Karen A Patte and Scott T Leatherdale-A cross-sectional investigation on weight status, bullying and mental health among COMPASS high school students
<b>1:15-14-OR</b>	<u>Gillian Williams</u> , Kate Battista and Scott T Leatherdale-Physical activity, screen time, and BMI's associations with age of initiation of alcohol, cannabis, and tobacco: an investigation among Canadian secondary school students
<b>1:30-15-OR</b>	<u>Ulaina Tarig</u> and Piotr Wilk Analysis of Added Sugar Intake of Canadian Children and Adolescents using the Canadian Community Health Survey on Nutrition 2015
<b>1:45-16-OR</b>	<u>Akinkunle Oye-Somefun</u> , Christopher Ardern, Jessica Fraser-Thomas and Jennine Rawana Research Proposal. Physical activity patterns in relation to overweight and obesity among preschoolers in Canada: National Longitudinal Survey of Children and Youth

**AUDITORIUM AT MOTHER ST. JAMES: Prevalence and Predictions**

<b>1:00-17-OR</b>	<u>Andrew Niles</u> -Using provider perspectives to understand what makes obesity prevention programs for children living in a First Nations Community in Northern Ontario effective
<b>1:15-18-OR</b>	<u>Matthew Nelder</u> , Hongwei Zhang and Guang Sun-The Comparison of Metabolic Characteristics Between Women with and Without Android Obesity from a General Newfoundland Population
<b>1:30-19-OR</b>	<u>Dania Orta-Aleman</u> -Household Food Insecurity Exacerbates the Risk of Short Sleep on Obesity among Adolescents
<b>1:45-20-OR</b>	<u>Peter Tian</u> -Daily self-monitoring of expected weight and modest caloric target- A report on 2 cases

**ROOM 135 (GROUND FLOOR) AT MOTHER ST. JAMES: Food Environments**

<b>1:00-21-OR</b>	<u>Amanda Raffoul</u> and Sharon I. Kirkpatrick-Dietary sources of energy, sodium, sugars, and saturated fat among Canadians
<b>1:15-22-OR</b>	<u>Rachel Acton</u> and David Hammond-Consumer responses to different front-of-package (FOP) labelling formats: preliminary results from an experimental study of 'high-in' nutrient symbols and health star ratings (HSR)
<b>1:30-23-OR</b>	<u>Veeral Desai</u> and Russell de Souza Canada's Food Guide Knowledge and Behaviour Study
<b>1:45-24-OR</b>	<u>Melissa Fernandez</u> , Sophie Desroches, Marie Marquis, Alexandre Lebel, Mylène Turcotte and Véronique Provencher The SKILLS study: Evaluating the Eat Well Campaign

**FRIDAY, JUNE 22 – Causes and Consequences**

**ORAL PRESENTATIONS #3**

**MERCATO AT CLARE HALL: Childhood & Adolescent Obesity Strategies 3**

<b>10:15-25-OR</b>	<u>Gabriel Kakon</u> , Stasia Hadjiyannakis, Ronald J. Sigal, Gary S. Goldfield, Denis Prud'homme, Glen P. Kenny, Steve Doucette and Angela S. Alberga The Edmonton Obesity Staging System for Pediatrics (EOSS-p), Cardiorespiratory Fitness and Quality of Life in Adolescents with Obesity
<b>10:30-26-OR</b>	<u>Joanna Przepiorkowski</u> , Don Gibson, Karen Stearne, Stafford W. Dobbin and Jian Liu Non-HDL Cholesterol and Over-weight/Obesity Status in School Children
<b>10:45-27-OR</b>	<u>Maryam Kebbe</u> , Arnaldo Perez, Annick Buchholz, Shannon Scott, Tara-Leigh F McHugh, Michele Dyson and Geoff Dc Ball Supporting adolescents with obesity in pediatric weight management: Perspectives of health care providers regarding implementation of lifestyle-based goals
<b>11:00-28-OR</b>	<u>Erica Szwimer</u> , Fatima Mougharbel, Gary Goldfield and Angela Alberga The effects of familial and peer weight teasing in childhood and adolescence on mental health outcomes in youth and adulthood: A systematic review

**AUDITORIUM AT MOTHER ST. JAMES: Diabetes**

<b>10:15-29-OR</b>	<u>Joyla Furlano</u> Feasibility of a 6-month resistance training program on cognition & brain health in overweight older adults at-risk for diabetes: A pilot study
<b>10:45-31-OR</b>	<u>Tessa Voth</u> and Diana Bedoya The Impact of Type 2 Diabetes and Obesity on Mental Health in a Publicly-Funded Medical Weight Management Centre

**ROOM 135 (GROUND FLOOR) AT MOTHER ST. JAMES: Weight Bias and Stigma**

<b>10:15-33-OR</b>	<u>Alexa R. Ferdinands</u> , Tara-Leigh McHugh, Kate Storey and Kim D. Raine The ruling of weight: An institutional ethnographic exploration of weight bias in school settings
<b>10:30-34-OR</b>	<u>Lara Zaroubi</u> and Angela S. Alberga Predictors of weight bias in health science students and fitness professionals: A scoping review
<b>10:45-35-OR</b>	<u>Iyoma Edache</u> , Angela Alberga, Mary Forhan and Shelly Russell-Mayhew Weight bias and health care utilization: A scoping review
<b>11:00-36-OR</b>	<u>Kelsey Jenner</u> and Mary Forhan A Critical Review of Educational Interventions to Reduce Weight Bias in Current and Future Healthcare Professionals

<b>ORAL PRESENTATIONS #4</b>	
<b>MERCATO AT CLARE HALL: Novel Interventions</b>	
<b>1:15-37-OR</b>	<u>Fatima Chleilat</u> , Teja Klancic, Ashley Choo, Jodi Nettleton and Raylene A Reimer Effects of oral supplementation of human milk oligosaccharides, 2'-O-Fucosyllactose and 3' Sialyllactose, on organ weight and insulinemic response in young Sprague Dawley rats
<b>1:30-38-OR</b>	<u>Jodi Nettleton</u> , Nicole Cho, Alissa Nicolucci, Teja Klancic, Jane Shearer, Stephanie Borgland and Raylene Reimer Maternal low-calorie sweetener consumption alters body composition, mesolimbic reward system, and gut microbiota in dams and offspring.
<b>1:45-39-OR</b>	<u>Teja Klancic</u> , Ashley Choo, Jodi Nettleton, Alissa Nicolucci, Nicole Cho, Fatima Chleilat and Raylene Reimer Co-administering prebiotics with antibiotics improves obesity risk, metabolic profiles and gut microbiota in dams and their offspring
<b>2:00-40-OR</b>	<u>Xiaowei Ma</u> and Tarun Katapally-Generating evidence for upstream policy interventions to address chronic disease morbidity among on-reserve First Nations children in Canada: Association between weight status, physical activity, screen time and blood pressure

<b>AUDITORIUM AT MOTHER ST. JAMES: Genetic and Genomic Factors and the Measurement of Obesity</b>	
<b>1:15-41-OR</b>	<u>Marie Pigeyre</u> , Jenny Sjaarda, Shihong Mao, Michael Chong, Sibylle Hess, Salim Yusuf, Hertzal Gerstein and Guillaume Paré Identification of IGFBP-3 as a biomarker for adiposity-related cardiometabolic risk
<b>1:30-42-OR</b>	<u>Justine Horne</u> , Jason Gilliland, Janet Madill and Jacob Shelley A critical review of lifestyle genomics testing for obesity management in Canada: Future directions for policy and legislation
<b>1:45-43-OR</b>	<u>Kerri Delaney</u> , Vi Dam, Jessica Murphy and Sylvia Santosa Isolation and quantification of immune cell populations in human adipose tissue by flow cytometry
<b>2:00-44-OR</b>	Arshdeep Randhawa, Michael Fung, Adam Fogel and Jennifer Kuk-No differences in the predicted body fat after violating traditional bioelectrical impedance assumptions

Poster Presentation Schedule

**THURSDAY, JUNE 21, 2018 & FRIDAY, JUNE 22, 2018**

**POSTER SESSIONS ARE IN MERCATO AT CLARE HALL**

**Set up time 8-9 AM Thursday June 21, Take down time by 2:30 PM Friday June 22**

**12:00 - 1:00 PM Authors must be present their posters during this time since judging (for prizes) will occur at this time**

<b>1A</b>	Michael Hawkins, <u>Andrew Lee</u> , Raed Hawa, Susan Wnuk, Richard Yanofsky and Sanjeev Sockalingam Prevalence and Factors Associated with Psychiatric Medication Use in Bariatric Surgery Candidates
<b>1B</b>	<u>Becky Breau</u> , Claire Mazzia, David Ma and Lori Ann Vallis Investigating the Relationship Between Body Composition and Physical Activity Levels in Preschool Aged Children
<b>2A</b>	<u>Miriam Price</u> , Mark A Ferro, Amanda Raffoul, David Hammond and Sharon Kirkpatrick Youth and young adults attempting to lose weight use a combination of strategies, with potential implications for health
<b>2B</b>	Jasmin Bhawra, <u>Priyanka Chopra</u> , Ranjani Harish, Anjana Mohan, Ghattu V Krishnaveni, Kumaran Kalyanaraman and Tarun Reddy Katapally Development of India Report Cards on the Physical Activity for Children and Youth: An Integral Component of Cross country evaluations of policies, environments and active living indicators
<b>3A</b>	<u>Victoria Villani</u> and Jennifer Kuk-Stress, physical activity, and sleep is associated with BMI cross-sectionally, but not weight changes longitudinally in an African American Population
<b>3B</b>	<u>Christie McLaren</u> , Annick Buchholz, Nicole Hammond, Gary S. Goldfield, Stasia Hadjiyannakis, Mark L. Norris, Wendy Spettigue and Nicole Obeid Examining Shape And Weight Concerns Among Adolescents in Tertiary-Care Based Obesity and Eating Disorder Programs
<b>4A</b>	<u>Lesley Andrade</u> , Kirsten Lee, Jackie Stapleton and Sharon Kirkpatrick Impact of non-nutritive sweeteners on obesity and metabolic health: a review of systematic reviews
<b>4B</b>	Karishma Hosein, Taniya Nagpal, Harry Prapavessis, Christina Campbell and Michelle Mottola Behaviour change intervention strategies to prevent excessive gestational weight gain using a Nutrition and Exercise Lifestyle Intervention Program (NELIP) in pregnant women.
<b>5A</b>	<u>Kelsey Ellis</u> and Amanda Casey Cost-Effective Exercise Intervention for Adults with Intellectual Disabilities
<b>5B</b>	Winnie Yu, Arshdeep Randhawa, Alison Macpherson and Jennifer Kuk All-cause mortality risk greatest in metabolic syndrome combinations with elevated blood pressure
<b>6A</b>	<u>M Carolina Archundia-Herrera</u> , Fatheema B. Subhan and Catherine B. Chan A randomized controlled trial to evaluate the effectiveness of the Pure Prairie Living Program in patients with type 2 diabetes – A lifestyle intervention
<b>6B</b>	<u>Shazya Karmali</u> , Dr. Jennifer Irwin, Dr. Victor Ng, Dr. Danielle Battram, Dr. Shauna Burke, Dr. Don Morrow, Dr. Erin Pearson, Dr. Patricia Tucker, Dr. Tara Mantler, Dr. Anita Cramp and Dr. Robert Petrella Coaching and/or Education for Parents with Obesity and their Preschoolers
<b>7A</b>	<u>Jash Parikh</u> , Arshdeep Randhawa, Heather Edgell and Jennifer Kuk-Individuals with obesity have a lower blood pressure than normal weight individuals when using certain antihypertensive medications
<b>7B</b>	<u>Yilina Liubaoerjijin</u> , Normand Boulé and Mary Forhan The Impact of a Bariatric Simulation Suit on Functional Mobility in Adults Without Obesity
<b>8A</b>	
<b>8B</b>
